BIENNIAL SURVEY RESULTS

The results of the 1985 Biennial Survey of Depository Libraries (as of August 1, 1985) are reproduced on the following pages. Questions 9 through 18 have been broken down by State. Results from the survey are being analyzed by the Inspection Team to identify depositories in need of a review. Some larger depository libraries could not give even an estimate of their total users per week and did not give an answer. The totals for question 18 are therefore judged to be underestimated.
